CP3: Mathematical Methods: Revision Lectures Part 1

Julia Yeomans

Mon 9, Tues 9, week 1

The lectures will include summaries of THINGS YOU SHOULD KNOW, but the majority of time will be spent going through worked examples. For maximum benefit please try the questions yourself first. Past papers are available on the web.

1. Vector algebra and geometry
   June 95, Maths 1, Q1
2. Determinants, matrices and linear equations
   June 95, Maths 2, Q2(ii)
3. Multiple integrals
4. Vector calculus
   June 97, Maths 1, A10
   June 00, Maths 1, B14
   June 00, Maths 1, B15
   June 95, Maths 1, 6
